

July Newsletter Article

Wing Ding is just around the corner and I do mean Just around the corner. It will be here and gone before most of you have time to read this article. I can only hope that all of you will remember the things that you've learned about group riding or solo riding as far as that goes. Here in the District of Florida your rider education teams have tried to help you be prepared for these extended trips, with the trials and tribulations that they can bring. You never have a lack of educational seminars or riding courses to help you improve your riding skills not to mention the many ways to ride in a group safely or to be prepared for any of the unforeseen emergency that may pop up out there.

I guess it's time to beat our own drum a little bit. Let me tell you about your Team. The District is very proud to have so many dedicated volunteers that have a great desire and love of helping each and every Gold Winger out there be safe.

Our Team consists of some fifty Seminar Presenters, twenty four PLP Facilitators, sixteen Medic First Instructors and a host of GWRRA Rider Instructors as well as four Master Instructors. These figures don't include the rest of the District Team or the Chapter Teams. The best part of all these Team members is what they can do for you! Our GWRRA Family. We want to make your time as a GWRRA Team member be more FUN, SAFE and ENJOYABLE. We're here to help you. You just need to step up and be willing to receive what we have to offer.

If you're going to wing Ding ride safe, take in all that you can, learn and enjoy and by all means
